To Whom It May Concern:

NOTICE OF FINAL HAZARDOUS WASTE FACILITY PERMIT DECISION – ADVANCED ENVIRONMENTAL, INC.

In accordance with the requirements of California Code of Regulations, title 22, section 66271.14, the Department of Toxic Substances Control (DTSC) is issuing this Notice of Final Hazardous Waste Facility Permit Decision (Notice) for the following facility:

Advanced Environmental, Inc. (AEI)
13579 Whittram Avenue
Fontana, California 92335
EPA ID Number: CAT 080025711

DTSC prepared a draft Standardized Hazardous Waste Facility Permit (Draft Permit) for this project. An Initial Study and draft Negative Declaration were also prepared to comply with the California Environmental Quality Act (CEQA).

AEI operates a hazardous waste storage facility that stores and transfers used oil, waste antifreeze, oily water, and solid wastes contaminated with oil. On March 11, 2005, DTSC published a public notice in the Fontana Herald News (an English language newspaper) and El Chicano (a Spanish language newspaper). This notice announced the start of a 45-day public comment period to solicit comments on the Draft Permit and the draft Negative Declaration. The public comment period ended on April 25, 2005.

Public comments were received by electronic mail and postal mail. DTSC has prepared a Response to the Comments (RTC) document and made changes to the Draft Permit. The RTC document and the DTSC memorandum to file listing all changes from the draft to final permit are available for formal public review at the repositories listed at the end of this Notice.

The Final Standardized Hazardous Waste Facility Permit, Series B, becomes effective on October 17, 2007 unless a review is requested pursuant to the California Code of Regulations, title 22, section 66271.18. Any person who filed

comments on the draft permit or participated in the public hearing may petition DTSC to review any conditions of the permit decision. Any person who failed to file comments on the draft Permit may petition for administrative review only to the extent of the changes from the draft to the final permit decision. The petition shall include a statement of the reasons supporting that review, including a demonstration that any issues being raised were raised during the public comment period to the extent required by the regulations and when appropriate, a showing that the condition in question is based on:

1. A finding of fact or conclusion of law which is clearly erroneous, or
2. An exercise of discretion or an important policy consideration which DTSC should, in its discretion, review.

A petition must be postmarked no later than October 23, 2007, and must be submitted to:

Mr. Watson Gin, Deputy Director
Hazardous Waste Management Program
Department of Toxic Substances Control
P.O. Box 806
Sacramento, California 95812-0806

A copy of the petition should also be sent to:

Mr. Ray Leclerc, P.E., Team Leader
Permit Renewal Team
Department of Toxic Substances Control
8800 Cal Center Drive
Sacramento, California 95826-3200

A copy of the complete administrative record for this permit decision is available for review at DTSC's Berkeley office at:
